

MAKE AN IMPRESSION!

Printing Industry of Minnesota

Make An Impression with the Voice of Experience (VOX)

The Voice of Experience is a program designed for printers to share the many facets of print with the next generation. Active and retired printers are encouraged to speak as printing industry representatives in their local communities and schools. Printing Industry of Minnesota can help locate schools and provide insight for your presentation, and even introduce you to the school

Contact the Printing Industry of Minnesota, Inc. for schools with Print Programs in your area.
